## JCS Declassification/Release Instructions on File

## TOP SECRET

ITEM V "Potential of Air Attacks as a Weapon to Achieve ROLLING THUNDER Objectives"

Paragraph C "Will of Regime as Target System"

Sub Item 2 "Control and Command System"

1. The command and control system targeted by the Joint Chiefs of Staff consists of six targets all of which are located in the immediate vicinity of Hanoi. Enclosure A presents these targets graphically. Salient features including a general description, required strike aircraft, estimated AAA loss rates, and civilian casualties are set forth in Enclosure B.
